

STONEKRAFT

LUXURY PROTECTION FOR PREMIUM SURFACE

EXPLORING STONEKRAFT SURFACE PROTECTION FILMS

THIS PRESENTATION PROVIDES AN IN-DEPTH ANALYSIS OF STONEKRAFT SURFACE PROTECTION FILMS, HIGHLIGHTING THEIR APPLICATIONS, ADVANTAGES, AND CURRENT MARKET TRENDS TO INFORM INDUSTRY PROFESSIONALS.

STONEKRAFT

STONEKRAFT SURFACE PROTECTION FILMS OVERVIEW

Protecting Stone Surfaces with Innovative Solutions

WHAT IS STONEKRAFT SPF?

StoneKraft SPF is a protective film that safeguards stone surfaces like granite, marble, and limestone.

ADVANCED HYDROPHOBIC CONSTRUCTION

Features a unique barrier known as FILM for superior heat and chemical resistance.

ENHANCING LONGEVITY

Significantly enhances the longevity and appearance of stone surfaces, crucial for homeowners and professionals.

FILM SPECIFICATIONS

The film is 5 mil thick, made of thermo-polyurethane with an advanced acrylic adhesive base.

PROTECTION AGAINST HAZARDS

Protects surfaces from acidic liquids such as lime juice and orange juice that can cause stains and etching.

DURABILITY ASSURANCE

Engineered for durability with a 10-year performance guarantee against chemical etching.

STONEKRAFT

DISTINCTIVE FEATURES OF STONEKRAFT SPF

Key Highlights of SPF Technology

COMPARISON OF SPF AND TRADITIONAL SEALANTS/WAXES FOR STONE SURFACES

Evaluating Protection, Maintenance, and Cost-Effectiveness

SUPERIOR PROTECTION

- SPF protects against kitchen chemicals.
- Traditional sealants offer limited protection against specific stains.

EASE OF MAINTENANCE

- SPF cleaning requires neutral water solution and an approved microfibre towel.
- Traditional sealants require frequent reapplication and special cleaners.

COST-EFFECTIVENESS

- SPF provides long-term durability, reducing maintenance costs.
- Traditional waxes/sealants need reapplication every six months, increasing costs.

USER-FRIENDLY

- SPF is easy to apply and removable without damage.
- Traditional sealants can be complicated to apply and may damage surfaces upon removal.

BEST PRACTICES FOR MAINTAINING SPF

Essential steps to enhance the lifespan of your films

REGULAR CLEANING

Use Neutral water based solutions and a microfiber towel to keep the surface clean and avoid dirt

AVOID HARSH CHEMICALS

Refrain from using abrasive cleaners that could damage the film's integrity despite its protective qualities.

INSPECTION AND WEAR

Regularly check for signs of wear and tear to extend the lifespan of the SPF.

WARRANTY INFORMATION

SPF includes a 5-year limited warranty against peeling and cracking, ensuring peace of mind.

SUMMARY OF STONEKRAFT SURFACE PROTECTION FILMS

Key Features and Benefits of SPF Technology

ENHANCED PROTECTION AGAINST DAMAGE

SPF offers superior protection against acidic liquids and high temperatures, prolonging the life of stone surfaces.

ADVANCED HYDROPHOBIC TECHNOLOGY

The innovative protective film enhances the appearance of stone surfaces while simplifying maintenance tasks.

LONG LASTING

LONG-LASTING PERFORMANCE GUARANTEE

Users can trust SPF for durability, backed by a substantial performance guarantee ensuring long-lasting results.

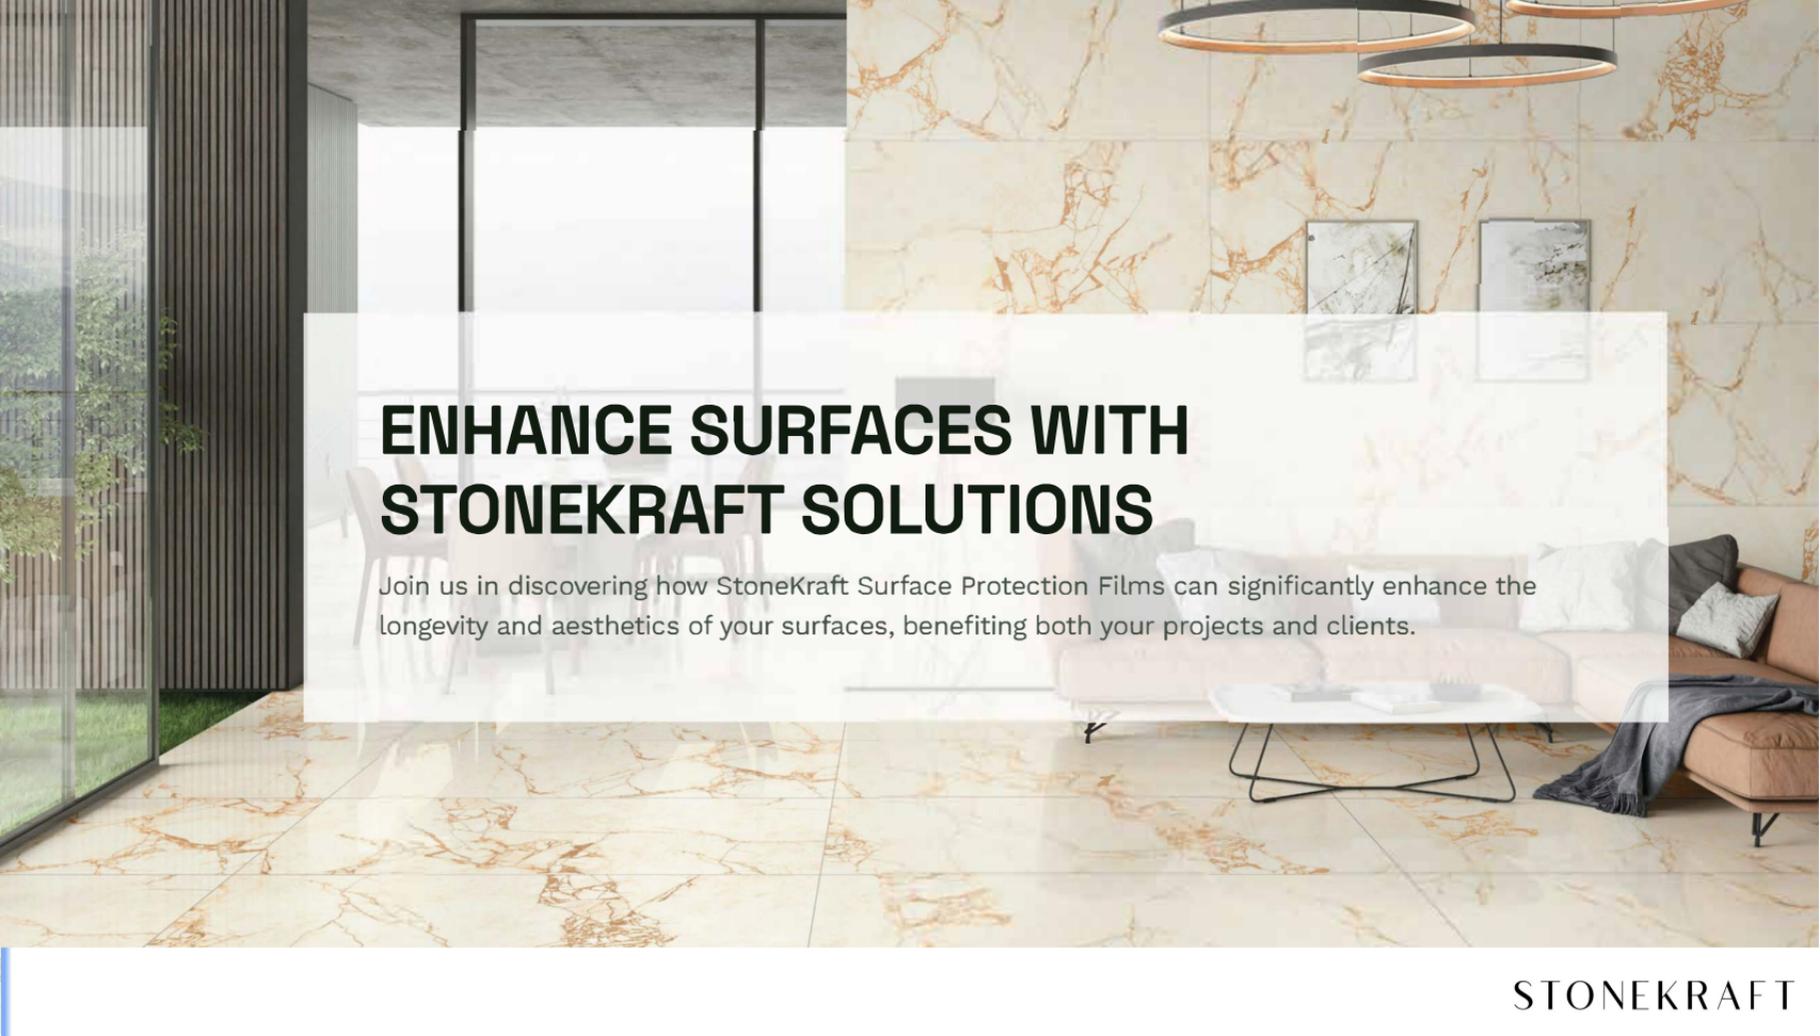

IDEAL FOR VARIOUS APPLICATIONS

SPF is suitable for both residential and commercial use, making it a versatile choice for stone protection.
